

# Digitize your forms and documents and fill them out in the field or office

## WORK SMARTER WITH GOFORMZ

The GoFormz Platform redefines how thousands of companies in over 170 countries collect, process and automate information. We are dedicated to digitizing the world's forms and documents, and are modernizing how work gets done.

### Fill Out Forms and Documents Anywhere

Complete your forms from a computer or a mobile device. GoFormz even works offline too, for when you are out in the field.

### Save Time and Process Information in Real-Time

With GoFormz you capture data on mobile devices or computers, eliminating the need for manual data entry into multiple systems. Simply 'complete' and the data and documents are saved to the GoFormz Cloud platform instantly. This decreases processing times, reduces handling errors and improves productivity. Improve customer service with real-time actionable data.

### Modernize Your Team to Record More Complete and Accurate Info

Use GoFormz to make your documents 'smart.' Unlock digital benefits and add new information to your forms like GPS, maps and images. Include calculations and conditional logic to save time and improve data accuracy.

### Streamline and Automate Your Work

Automate workflows and increase teamwork and collaboration. Use GoFormz to streamline day-to-day workflows by automating tasks like auto-assignment of forms to teams or individuals, and enforcing critical business processes like cross-department approval.

### Store and Review Your Data Online

All data and documents are securely stored in the Cloud and are accessible from anywhere, at anytime. Extend your digital form solutions across your company, including international divisions with different language requirements.

### Integrate with Other Applications

Use pre-built integrations or our API to connect your existing enterprise systems with GoFormz, and programmatically access and update data.
